

How To Add Images To A Product

Step One	Go to the Dashboard, General Data and then Product.	 
-----------------	---	---

Step Two	Click Search to find your product and then double click your chosen product.
-----------------	--

Step Three	Click on the “Files” button on the left hand side.	
-------------------	--	--

Step Four	A box will appear. Click “Add New Picture” on the top left hand corner.	
------------------	--	--

Step Five

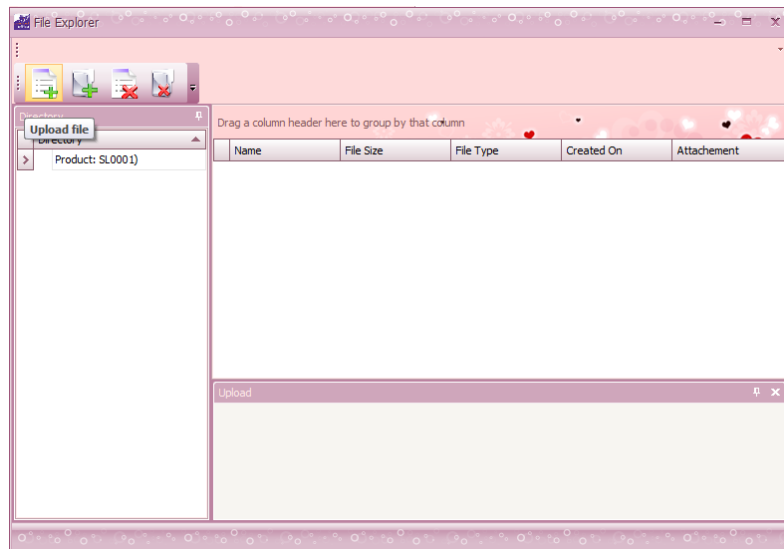

A secondary box will appear.

Click Upload File at the top.

Locate the image on your PC.

Make sure the image file is of the following:

- JPG
- JPEG
- BMP
- PNG
- GIF

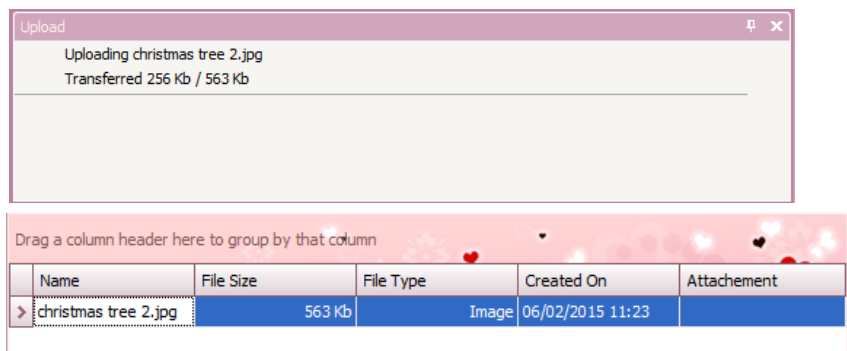

Step Six

A download bar will appear.

Once this has downloaded, it will show as an attachment.

Close all previous windows down.

Step Seven

If this has been followed correctly, your image will show in your product.
